

SACRAMENTO TECHNOLOGY GROUP ANNOUNCES STRATEGIC PARTNERSHIP WITH SAFENET

CITY/STATE –Date Launching, 2011—Sacramento Technology Group, a leading provider of technology solutions for the office and in the cloud, announced today that it has partnered with [SafeNet, Inc.](#), to bring Cloud Security solutions to enterprises.

With so many manufacturers, biotechnology companies, and government organizations investigating or moving their technology to the cloud, concerns for securing data and access are increasing. With SafeNet’s complete portfolio of cloud solutions, businesses can protect data as it moves from on-premise to virtual environments, control access to cloud-based applications, and maintain data ownership and isolation, even in multi-tenant environments.

“SafeNet’s holistic approach to protecting information in the cloud adds a dimension to our product line-up that will help our enterprise clients compute securely in the cloud. We are proud to add SafeNet to our list of trusted cloud partners,” said George Usi, President, Sacramento Technology Group, whose motto is "Technology Delivered to Your Office or the Cloud with CARE™ so You Can Focus on Your Business."

“Organizations today are looking for solutions that help them practically and securely move their data and applications to cloud environments,” said Tsion Gonen, corporate vice president, product management and marketing. “SafeNet’s portfolio of cloud solutions takes a data-centric approach that enables enterprises to seamlessly extend protection and control from the data center to virtualized environments. We’re excited about our partnership with Sacramento Technology Group because it helps our mutual customers take full advantage of the business benefits of the cloud, while maintaining trust and control.”
